

# *CASE STUDY*

**OSCAN OMR SOFTWARE**

# PROBLEM

- First, the examination conducted in the organization was completely paper based.
- There was wastage of papers at huge amount.
- At time of registration the data fed was manually this resulted in less data accuracy.
- Due to offline data registration there was high rate of data leakage and the organization was facing problems in manually checking the papers conducted by the academy.
- It was very time consuming and they were facing difficulty in conducting the exam.
- There were errors in manual checking as there were mistakes in calculating the total marks sometimes this affected the result of the particular student.
- There was no transparency in the manual checking process.

# WE OFFERED

**NOT JUST OUR TIME**

## OMR SHEETS

We provided OMR sheets as the solution. This saved their money and the paper wastage got decreased. Data accuracy and data confidentiality also got increased.

## OSCAN

We gave software to the organization to evaluate the OMR marksheets. By using the OSCAN, it automates the process of scanning of answers sheets and result generation.

## RESULT & ANALYTICS

Transparency increased as every OMR sheet has a unique bar code and the result is generated through that bar code.

## LESS MANPOWER CONSUMPTION

When they started using OMR sheets it decreased the paper wastage. By using the OSCAN software manual efforts was decreased and thousands of OMR sheets were processed and scanned in no time with minimal man power.

## AUTOMATED RESULT GENERATION

No manual checking therefore this resulted in less data manipulation and resulted in 100% accuracy of the result.

## INCREASED TRANSPARENCY

There was transparency in complete result generation. Name of the student is not displayed at time of result calculation, hence the result of the student cannot be manipulated.

# *IMPACT*

## RESULT

*The institution was very satisfied with our products; it helped the institution in improvising there offline examination process. It also saved there money and time . They were impressed by our software and technical support throughout the offline examination process, that they still continue to be associated with our company...*

*THANK YOU!*
